New “Friends of Keep It Colorado” option coming soon!

Conservation Organizations

Land trusts and public agencies in Colorado whose mission centers on or prioritizes on-the-ground land, water and wildlife conservation initiatives and community-centered conservation.

Land Trusts

Nonprofit organizations in or serving Colorado that fit one or more of the following descriptions:

- Are accredited by the Land Trust Alliance.
- Are a state-qualified holder of conservation easements.
- Accept donated conservation easements, purchase easements, or fund the purchase of easements.
- Acquire property for the purpose of perpetually protecting land, water or wildlife.
- Steward conserved land or water properties in perpetuity.

Public Agencies

Cities and counties, parks and open space departments, special districts, water entities, state agencies and federal agencies.

Conservation Pros

For-profit entities in Colorado that are instrumental to enabling and amplifying conservation.

Tax credit brokers, attorneys, appraisers, environmental consultants, due-diligence consultants and other firms in the business of enabling conservation and stewardship.

Conservation Champions

Non-profit groups leading or engaged in conservation and stewardship through programs or services.

Stewardship, restoration, preservation, education, engagement, research and other program-oriented groups and partners with specific goals to advance conservation.

COALITION VALUES AND PRACTICES AGREEMENT

We're thrilled you want to join us! We only ask that as a new member, you align with our coalition values and practices. We ask that you agree to:

- Align with and support our mission, vision and values.
- Support our conservation-minded and future-focused philosophy.
- Will not engage or have not engaged in syndication activities.*
- Support an inclusive and diverse coalition and conservation sector.

**Syndicated conservation easements are tax shelters for entities that put land under easement, and membership interests in the entity are sold to investors seeking a deduction based on appraised values that are significantly in excess of the original acquisition price.*
